Write a case report for Inspectors Sadaphal and Solla. Your case report should include the items below. Make sure you provide extensive evidence to support your claim.

- Description of all the suspects and the scenario (the situation)
- A claim about who did it
- Description of all the collected evidence that supports your claim
- A possible motive for why the culprit committed the crime

**Important things to remember:**
- Your case report must be typed and shared with Danielle via Google Classroom.
- Make sure you use correct grammar and punctuation.
- Write in 3rd person (no "I" or "my")

**Possible Outline:**
- Summarize the scenario and describe all the suspects and their involvement
- Describe the physical evidence that was collected from backstage and how we analyzed it
- Describe why we used paper chromatography and explain the results of our tests
- Describe the fingerprint analysis we conducted
- Make a claim about who the culprit is and what his/her motive was

**Example of How to Describe the Evidence**

After thorough visual observations and many chemical reactions, it was discovered that the unknown substance brought to Chef Osorio by Rudy was baking soda and not sugar. This was concluded because both the unknown and the baking soda had a very white appearance with small shining particles in it. Also, both the unknown and the baking soda bubbled and fizzed when vinegar was added to them. Thus, it can be concluded that the unknown substance Rudy brought Chef Osorio was in fact baking soda and not sugar.

**Key Terms:**
- Suspects
- Culprit
- Allegedly
- Guilt
- Innocent
- Motive
- **see notes for science vocabulary to include**
Case Report

The ESI Team has been investigating this case for almost two weeks to try to decide if Chef Osorio was sabotaged....
